Detoxification or detoxication (detox for short) is the physiological or medicinal
removal of toxic substances from a living organism, including the human body, which is
mainly carried out by the liver. Additionally, it can refer to the period of withdrawal
during which an organism returns to homeostasis after long-term use of an addictive
substance. In medicine, detoxification can be achieved ...

Detoxification (often shortened to detox and sometimes called body cleansing) is a type
of alternative medicine treatment which aims to rid the body of unspecified "toxins" —
substances that proponents claim have accumulated in the body and have undesirable
short-term or long-term effects on individual health. Activities commonly associated
with detoxification include dieting, fasting ...
