the development of anti japanese agitation in the united states Postdevelopment theory (also post-development or anti-development or development criticism) holds that the whole concept and practice of development is a reflection of Western-Northern hegemony over the rest of the world. Postdevelopment thought arose in the 1980s out of criticisms voiced against development projects and development theory, which justified them.

the development of anti japanese agitation in the united states If a company exports a product at a price lower than the price it normally charges on its own home market, it is said to be "dumping" the product. The WTO Agreement does not regulate the actions of companies engaged in "dumping". Its focus is on how governments can or cannot react to dumping " it disciplines anti-dumping actions, and it is often called the "Anti-dumping Agreement".
