the development of quine philosophy Quine's place in the history of philosophy. First, he rejects the idea of a distinction between philosophy on the one hand and empirical science on the other hand. To the contrary: he sees philosophy as essentially in the same line of work as science, but mostly concerned with more theoretical and abstract questions.

Willard Van Orman Quine (Stanford Encyclopedia of Philosophy)

the development of quine philosophy It is only after this development that Quine (1969a, 82-3). comes to his famous conclusion about the need for a naturalized epistemology: [E]pistemology still goes on, though in a new setting and a clarified status. Epistemology, or something like it, simply falls into place as a chapter of psychology
